35. Information which you feel pertinent and which is not adequately covered in the specific points of the questionnaire or a narrative explanation of your sighting.

The night of this sighting I found out that the UFO seemed to approach me and then move away, but I could not be sure because I was slowly walking toward it, but it did look like it was approaching myself and the other boys. I also found out that a person who lives almost directly across from where we saw the object saw it the same night while he was going to Philadelphia, Pa. He said it traveled north on Dilson Dr - the street in which he was traveling on. To him the object seemed to sit down in the woods - where I did not inquire. I do not know the man personally only as [redacted]. He owns [redacted] on [redacted] and Vineland, N.J. I think that his information would seem helpful to you.

I found out this information from [redacted] who was talking to [redacted]
